Committee Functions

The right of a petitioner to present a petition to the Legislature is an inalienable right. It is also a way of bringing a grievance to the notice of the legislature. It is the responsibility of the Public Participation and Petitions Committee to receive and consider petitions submitted to the Legislature. These petitions should meet the requirements of the Limpopo Petitions Act 2003. The Committee is also responsible for public participation in the legislative process as enshrined in the Constitution of the Republic of South Africa, 1996.
